EDUCATION

- B.Sc. in Computer Science** | University of British Columbia 2025–2029
- Relevant coursework: Data Structures & Algorithms, Object-Oriented Programming, Statistics, Multivariable Calculus, Discrete Mathematics, Databases, Computer Networking, Hardware & OS, Software Engineering
 - Transferred from Langara College (2025 – 2026), GPA: +3.8, Dean's Excellence Scholarship

ACTIVITIES

- App Design and Development Competitor** Sep 2020 – Apr 2025
Game of Apps, Institute of Applied Design & Technology Education Society
- Designed and developed Android/iOS applications using Java, Swift, and Figma in cross-functional teams from initial user research through development and presentation
 - Conducted **user interviews** to focus on **user-centric needs**, translating findings into product requirements, **UX/UI** improvements, and prototype iterations
 - Collaborated across design and development roles to evaluate tradeoffs, prioritize features, and iterate toward **user-focused solutions**
 - Pitched applications to **industry professionals**, incorporating feedback into subsequent iterations

EXPERIENCE

- Junior Developer Intern** | *Media 1248 (ActiveReleaf.ca)* May 2023 – Oct 2023
- Engineered an automated inventory synchronization system using **Google Apps Script**, eliminating manual reconciliation between internal systems and e-commerce platform data
 - Developed and maintained production WooCommerce/WordPress systems using **JavaScript, PHP, HTML/CSS**, improving site reliability and reducing bot/spam traffic
 - Built responsive e-commerce interfaces and landing pages for product launches and external sales workflows
 - Debugged and iterated on production systems while balancing technical requirements with business + user needs
- Assistant Program Coordinator** | TonariGumi Volunteers Association Mar 2024 – Mar 2025
- Led a team of **+20** volunteers to run a digital literacy program supporting **250+** seniors across Metro Vancouver
 - Created and delivered **+30** workshops and **+70** 1:1 support sessions on cybersecurity, devices, and online services
 - Managed **\$20K** of government funding to coordinate community partnerships and expand service reach
 - Maintained program website using **HTML/CSS/JavaScript**, ensuring intuitive **UI for seniors** of all abilities

PROJECTS

- Resumer** | Java, Android, Figma | [Pitch Presentation](#) 2022
- Developed Java resource app that connects users with local shelters and essential resources
 - Awarded **People's Choice App** at Game of Apps Season 6
- uRelief** | Java, Android, Figma | [Pitch Presentation](#) | [Repo](#) 2023
- Developed Java resource app that connects users with local shelters and essential resources
 - Awarded **Best Overall App** at Game of Apps Season 6
- NoNotes** | Python, Flask, SQLite, JavaScript, BERT, PyDub, SpeechRecognition | [Writeup](#) | [Repo](#) 2023
- Built web app that converts browser-audio into transcripts and BERT-based extractive notes
 - Awarded **1st Place** at HappyHacks 2
- Poses For Dummies** | WebSockets, React, p5.js, MediaPipe, Cloudflare | [Writeup](#) | [Repo](#) 2026
- Built real-time multiplayer game integrating **machine learning** pose estimation and synchronized gameplay
 - Awarded **3rd Place** at Quack Hacks 3 (Pipeworks Game Development Track)

SKILLS/CERTIFICATIONS

Languages: Python, Java, C++, TypeScript, JavaScript, SQL, PHP, Swift
Frameworks/Libraries: React, Node.js, Flask, p5.js, MediaPipe
Tools: Git, PostgreSQL, Linux, Vercel, Figma, Google Apps Script
AI/ML: scikit-learn, NumPy, Pandas (from [NeuroMatch Academy](#) 2025)
